Abstracts

Mobile internet retailing showed dramatic double-digit growth in 2018, whilst continuing the long-term trend of shifting to “mobile first” internet use amongst the population. The development of the mobile internet infrastructure in Ukraine, driven by the expansion of 3G/LTE network coverage across the country, was a major influencing factor for the channel. Ukrainians have also increased the number of mobile devices they own, leading to a situation where most of the population of towns with mor...
