Abstracts

The strong growth by naturally healthy packaged food is set to continue in 2021, as consumers have been cooking more at home as a result of COVID-19 and various related restrictions. NH rice and NH olive oil remain particularly strong performers, with greater consumption of these products driven by the preparation of meals at home as consumers have been reluctant to visit busy foodservice outlets. However, South Koreans face both inertia and pressure regarding the constant need to plan home-cook...

Euromonitor International's Naturally Healthy Packaged Food in South Korea report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.
