Abstracts

In 2022, the combination of COVID-19, geopolitical tensions and increased climate events deepened disruptions to food supply. Combined with mounting health and sustainability pressures, the context invites food players globally to rethink ingredient sourcing and offerings. Aside from helping to tame more volatile costs, diversifying ingredients can help meet nutritional needs among consumers, whilst aligning with regulatory changes and even contributing to more sustainable business models.

Euromonitor International's The Need for Ingredient Diversification in Foods global briefing offers an insight into to the size and shape of the health and wellness marketplace, highlights buzz topics, emerging trends, categories and geographies as well as pressing industry issues and white spaces. It identifies the leading companies and brands, offers strategic analysis of key factors influencing wellbeing market - be they new product developments, packaging and ingredients innovations, introduction of new regulatory schemes, economic/lifestyle influences, distribution or retail pricing issues. Forecasts illustrate how the market is set to change and criteria for success.

Product coverage: Focus Categories by Key Functional Ingredients, Health and Wellness by Category, Health and Wellness by Type, Health Wellness by Prime Positioning.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Health and Wellness market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
