Abstracts

Global demand for meat alternatives is rising as health and sustainability concerns push more consumers towards meat reduction. This report examines how the use of fermentation can push the boundaries of innovation, offering numerous opportunities in improving the profile of meat alternatives. It also considers the challenges that the industry is facing and highlights the factors that can accelerate the democratisation of fermentation-derived alternatives.

Euromonitor International's New Protein Frontiers: Fermentation in Meat Alternatives global briefing provides a comprehensive overview of the Staple Foods market, providing insight on sales and market potential, retail distribution and company and brand shares. Analysis identifies emerging geographies alongside growth opportunities in the most developed, highest value countries. It also offers strategic analysis of the key trends shaping the industry and consumer demand, such as health and wellness, sustainability, the evolution of eating occasions, in addition to ongoing considerations of convenience and value-for-money in the post-pandemic world. Insight into how these trends are shaping demand informs forecasts to 2026, clearly indicating how the market is expected to change.

Product coverage: Baked Goods, Breakfast Cereals, Processed Fruit and Vegetables, Processed Meat, Seafood and Alternatives to Meat, Rice, Pasta and Noodles.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Staple Foods market;
