Abstracts

Prior to the pandemic, demand for nuts had been growing, in line with rising awareness of the health benefits of eating nuts, which are a rich source of various nutrients, including vitamins and minerals such as calcium, iron, vitamin E, omega 6 and omega 3 and protein. However, the positive impact of this health-based interest was being dampened by the concurrent rise in demand for convenience and foods compatible with snacking and on-the-go consumption. Consequently, consumers were more inclin...

Euromonitor International's Nuts in China report offers a comprehensive guide to the size and shape of the market at a national level.
