Abstracts

A significant percentage of booking transactions are still placed offline in Egypt, with longstanding commercial relationships the backbone of the industry. Around a third of travel intermediaries sales are set to be made online in 2020, a far lower rate than other competing regional destinations. Egyptian consumers prefer the level of personal service that this channel offers, and the intermediaries themselves prefer the level of control over inventory and travel partners.

Euromonitor International's Online Travel Sales and Intermediaries in Egypt report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest market size data 2015-2019, allowing you to identify the sectors driving growth. It identifies the leading companies and offers strategic analysis of key factors influencing the market - be they new legislative, technology or pricing issues. Background information on disposable income, annual leave and holiday taking habits is also included. Forecasts to 2024 illustrate how the market is set to change.

Product coverage: Mobile Travel Sales to Residents, Online Travel Sales to Residents, Travel Intermediaries.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
