## Abstracts

Organic beverages registered slower retail value sales growth in 2021 due to its relatively higher unit prices when compared to other health and wellness beverages. During the COVID-19 pandemic in 2020 and 2021 many consumers were more focused on basic food and beverage products, as they were more price sensitive and therefore optimising budgets and switching to cheaper alternatives where possible. Furthermore, many consumers visited grocery retailers and speciality health and wellness shops les...

Euromonitor International's Organic Beverages in Bulgaria report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector.
