## Abstracts

Although organic beverages performs well in overseas markets, this remained by far the smallest category within HW beverages in China in 2021, due to a lack of product availability and weak consumer awareness. The category returned to more dynamic double-digit retail current value growth in this year, after COVID-19 led to a slightly slower increase in 2020 than in other years of the review period due to consumers' greater caution when spending due to the economic impact of the pandemic. Sales o...

Euromonitor International's Organic Beverages in China report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences.
