Abstracts

Organic beverages performed well in 2021, with healthy retail current value growth. Organic beverages is a very small product area, with value sales much lower than other health and wellness beverages, with only organic coffee registering any significant value sales. Organic fresh coffee is also significantly larger than organic instant coffee in terms of retail current value sales and registered higher value growth in 2021. Organic coffee is perceived as a premium product and consumers look to...

Euromonitor International's Organic Beverages in Colombia report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.
