Abstracts

Organic beverages is set to continue to grow in 2021, although from a very low base, as it suffers from general weak consumer sentiment, with consumers prioritising beverages with a more specific health positioning. While 2021 looked set to be a year of recovery for Singapore from COVID-19, the shift back to more COVID-19 restrictions from May 2021 due to the emergence of the Delta variant hurt overall consumer sentiment. This caused a slowdown in sales of products with premium prices, such as o...

Euromonitor International's Organic Beverages in Singapore report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.
