Abstracts

Sales of organic beverages in Sweden have seen slowed retail value growth during the pandemic as the economic impact of COVID-19 has negatively affected demand for organic beverages. Organic beverages tend to be expensive, premium products due to limited availability of ingredients. As the economic outlook has led to many Swedes becoming more price sensitive, demand for category items has been hampered. Nevertheless, organic beverages with a sustainable positioning (for example, via brand market...

Euromonitor International's Organic Beverages in Sweden report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.

Product coverage: Organic Hot Drinks, Organic Soft Drinks.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
