Date: March 2021

Pages: 26

Price: US\$ 1,325.00 (Single User License)

ID: OE15B83E699FEN

Abstracts

Organic food has grown in 2020 despite its premium price points, amid the worst global economic crisis in decades. The briefing explores the reasons for this expansion, including the focus on health and food safety, the importance of sustainability and animal welfare, the change in consumer priorities in terms of expenditure, and the competitiveness brought by the maturity of the market and the development of private label. The briefing ends with a look into the future of the category.

...

Euromonitor International's Organic Food: Coronavirus and the Future global briefing offers an insight into to the size and shape of the Packaged Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving packaged food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like new product developments, packaging innovations, retail distribution and retail pricing both historically and into the future.

Product coverage: Cooking Ingredients and Meals, Dairy Products and Alternatives, Snacks, Staple Foods.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
