## Abstracts

Organic packaged food is a rapidly developing area for packaged food industry in Canada, with a growing number of shoppers buying organic products on a weekly basis. Significantly, organic packaged food is no longer regarded as a luxury by many, with consumers buying these products regardless of income level and from mainstream chained grocery retailers. Interest is also rising across all age groups as consumers seek ways to improve their health. The organic industry in Canada also receives supp...

Euromonitor International's Organic Packaged Food in Canada report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.
