Abstracts

Organic milk, which had been recording declining sales in the two years previously, returned to positive growth in both volume and value terms in 2020. Its strong growth in 2020 was down to the increased attention paid to safety and high quality standards in light of the spread of COVID-19. The category has also been stimulated by product innovation, with leading player Inner Mongolia Yili Industrial Group, for example, launching organic milk with zero fat under its brand Satine, catering to the...
