## Abstracts

Consumers' awareness of the benefit of organic products is very low in Japan. The underdevelopment of organic food in Japan is due to the lack of understanding amongst consumers in the country, as well as poor investment by manufacturers. The lack of domestic ingredients, including organic vegetables and dairy products, prevents manufacturers in Japan from investing in the development of organic packaged food; thus, product availability is extremely low in Japan. Organic packaged food is often n...

Euromonitor International's Organic Packaged Food in Japan report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2016-2020, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2025 illustrate how the market is set to change.
