## Abstracts

Many consumers view organic certifications on packaged food as a seal of quality. Consumers who are interested in health and wellness and looking to improve their diet view organic foods as a favourable alternative to traditional products. The consumer focus on health increased due to COVID-19, and organic labels on packaged food products can have a strong impact on purchasing decisions. Sales of organic products saw a big boost in 2020 amidst the pandemic. However, as with most other packaged f...

Euromonitor International's Organic Packaged Food in USA report tracks the developments of health-associated product types and the healthy-option positioning of competing brands across different food sectors. It provides the latest retail sales data 2017-2021, allowing you to compare health and wellness categories with each other or in the context of the total market for a sector. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market- be they new product developments, legislative context or lifestyle influences. Forecasts to 2026 illustrate how the market is set to change.
