Abstracts

Overall, the Chinese packaged food market has seen retail growth slow in 2020 due to the negative impact of the COVID-19 pandemic. Measures to limit the spread of the disease involved store closures and restrictions on public movement, which had an adverse effect on sales across most packaged food categories. Furthermore, the COVID-19 outbreak was ongoing during the Chinese New Year celebrations, a period which normally generates significant sales in a number of packaged food categories both for...

Euromonitor International's Packaged Food in China report offers a comprehensive guide to the size and shape of the market at a national level.
