Abstracts

Most areas of packaged food still had a very low base as of 2016, with strong potential. The old practice of consuming loose/unpackaged products such as rice, bread, oils and cheese was being replaced by the consumption of packaged items, especially in key urban areas, and mainly as a result of the widespread activities of key suppliers. In addition, Iran still had a young population and according to national statistics, more than 70% of the population were between 15 and 64 years old. This...
