Abstracts

Packaged food is expected to be one of the best performing industries in terms of retail growth rates in 2020 following the outbreak of COVID-19. This is because of consumer stockpiling which is fuelled by the fear of potential stock shortages as well as the continued uncertainty of the global pandemic. The closure of foodservice outlets is also driving an increase in retail growth rates as consumers are eating more meals at home. The implementation of the new 15% VAT is also expected to contrib...
