## Abstracts

Despite GDP forecasts for 2017 being maintained or improved in most markets, the quarterly update forecast for packaged food shows a downgrade globally and in key markets, particularly in large developed economies. Poor forecasts for Mexico, the UK and the US reflect potentially adverse economic policies. As stagnation hits developed markets, and expansion in emerging markets is more challenging to achieve, key players are lowering their organic growth targets and focusing on cost cutting.

Euromonitor International's Packaged Food: Quarterly StatementQ2 2017 global briefing offers an insight into to the size and shape of the Packaged Food market, highlights buzz topics, emerging geographies, categories and trends and identifies the leading companies and brands. It also offers strategic analysis on driving packaged food industry trends like health and wellness, premiumisation, convenience and value-for-money and how those trends influence factors like new product developments, packaging innovations, retail distribution and retail pricing both historically and into the future.

**Product coverage:** Baby Food, Baked Goods, Breakfast Cereals, Confectionery, Dairy, Edible Oils, Ice Cream and Frozen Desserts, Processed Fruit and Vegetables, Processed Meat and Seafood, Ready Meals, Rice, Pasta and Noodles, Sauces, Dressings and Condiments, Savoury Snacks, Soup, Spreads, Sweet Biscuits, Snack Bars and Fruit Snacks.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
