Abstracts

VAT (value-added tax) was increased in the Czech Republic in January 2010, from 19% to 20%, including packaging. In January 2012, VAT on goods with a lower rate of 10% will increase to 14%. The lower, exceptional rates are applied to goods considered more important to consumers, such as food and pharmaceuticals. From 2013, there will be a standard VAT rate of 17.5% for all goods. These changes have been approved by the government and ratified in parliament, but they remain the subject of...

Euromonitor International's Packaging in Czech Republic report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

WHY BUY THIS REPORT?

Get a detailed picture of the Packaging market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems. With offices in London, Chicago, Singapore, Shanghai, Vilnius, Dubai, Cape Town, Santiago, Sydney,

Tokyo and Bangalore and a network of over 800 analysts worldwide, Euromonitor International has a unique capability to develop reliable information resources to help drive informed strategic planning.
