Abstracts

The year 2021 saw people leaving their homes more and getting back into their regular routines in the Netherlands after the restrictions put in place due to the pandemic in 2020. However, some habits, like prioritising hygiene and cleanliness, continued into 2021. Consumers' needs and concerns were therefore still influencing changes in the packaging industry in 2021.

Euromonitor International's Packaging in Netherlands report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Packaging market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research

reports, business reference books and online information systems.
