## Abstracts

From home care and beauty and personal care, to hot and cold beverages; consumers need convenience and affordability with the environment in mind. The Singapore government has plans to introduce a mandatory reporting framework on packaging that will be introduced in 2020. Under this framework, producers of packaging and packaged products will have to report the types and amount of packaging that they produce and their 3R (reduce, reuse, recycle) plans. The strong growth in internet retailing, to...

Euromonitor International's Packaging in Singapore report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.

### Why buy this report?

Get a detailed picture of the Packaging market;

Pinpoint growth sectors and identify factors driving change;
