Abstracts

The pandemic forced the Singapore government to put in place so-called circuit breakers, which included lockdown measures, in order to limit the chain of viral transmission. This resulted in the closure of non-essential premises, such as foodservice establishments, many offices (with staff working from home), schools and other institutions. At home, consumers often preferred larger pack sizes or multipacks, which helped to minimise the frequency of trips to stores as well as generally offering a...

Euromonitor International's Packaging in Singapore report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Packaging market;

Pinpoint growth sectors and identify factors driving change;
