Abstracts

After being hit by the pandemic, the United Arab Emirates has seen a lot of development in its packaging industry in 2021. Sustainability, convenience and responsibility have been among the key words in the packaging industry in 2021. Metal food cans, thin aluminium trays and plastic pouches have been popular across a number of categories, replacing glass and plastic packaging. With people leaving their homes more in 2021 as they returned to the office and their place of education, on-the-go con...

Euromonitor International's Packaging in United Arab Emirates report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
