Abstracts

In Brazil, 2022 saw significant developments in the packaging industry, driven by changing consumer behaviour and environmental concerns. With the post-pandemic shift towards on-the-go consumption, convenience and portability becoming key considerations for consumers, this boosted demand for compact and lightweight packaging solutions, such as PET bottles, metal beverage cans and flexible packaging. PET bottles are popular due to their lightweight nature, recyclability and durability. These bott...

Euromonitor International's Packaging in Brazil report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.
