Abstracts

Paediatric consumer health has recorded a small sales decline in current value terms in 2023. Children are becoming more prone to getting sick now that the pandemic is over, with them not staying home as much anymore, going to school/daycare, spending time with friends, and visiting public spaces more frequently. However, parents and guardians are increasingly opting for alternatives to OTC medications such as home remedies for cough, cold and even digestive issues. Many parents and guardians ar...

Euromonitor International's Paediatric Consumer Health in Austria report offers a comprehensive guide to the size and shape of the market at a national level.
