Abstracts

Paediatric consumer health is experiencing similar value growth rates to the previous year in Chile, although this is not aligned with the increasing demand for this category during 2023. A notable challenge has emerged as there have been stock shortages for paediatric medications, primarily attributed to a severe surge in respiratory syncytial virus (RSV) cases. This viral infection disproportionately affects minors, causing respiratory and lung issues. Tragically, the outbreak has led to the l...

Euromonitor International's Paediatric Consumer Health in Chile report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
