## Abstracts

The preference for herbal/traditional products has grown in recent years, driven by the rising demand for natural and clean ingredients. This trend is evident across the whole of consumer healthcare, but is particularly prominent in paediatric consumer health as parents want to limit their children's exposure to artificial and potentially harmful chemicals. As such, more natural remedies are being demanded in all paediatric categories, from diaper creams and body lotions to cough medicine and di...

Euromonitor International's Paediatric Consumer Health in Croatia report offers a comprehensive guide to the size and shape of the market at a national level.
