Abstracts

Most paediatric consumer health categories are expected to contract in volume terms in 2023. This is partly due to persistently high inflation in Hungary, with steep price hikes and falling purchasing power making people more inclined to only purchase these types of products on an as-needed basis rather than to stockpile for future use. Similarly, many Hungarians have sought to save money by giving their kids smaller doses of OTC medications that are primarily intended for adults or marketed as...

Euromonitor International's Paediatric Consumer Health in Hungary report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
