Abstracts

Paediatric consumer health is set to remain one of the better performing categories in consumer health in 2023, with the expectation of solid current value growth and also continued volume growth, despite the falling population aged 0-12. This is due to the fact that children's wellness and wellbeing are considered important, and are a focus of most parents. Therefore, paediatric products, whether it is medicines to treat symptoms, or those that serve to maintain the health of their children, ha...
