Abstracts

Targeted marketing techniques such as segmentation and positioning have proven to be effective in boosting sales of paediatric consumer health products. Local brands seem to understand the concerns of parents when it comes to the wellbeing of their children. Despite the strong performance of paediatric consumer health in Singapore, there may be limitations to expansion, due to the declining fertility rate in the country. To overcome this, retailers are offering more extensive ranges of paediatric...

Euromonitor International's Paediatric Consumer Health in Singapore report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
