Abstracts

Despite the tough economic landscape in South Africa and the cost of living crisis in the country consumers continue to purchase paediatric consumer health products. During the review period, consumers cut down on discretionary spending and were even willing to compromise on food quality. However, they were unwilling to compromise on paediatric consumer health products. This is because parents often stick to products that they know will work for their children, and only switch between paediatric...

Euromonitor International's Paediatric Consumer Health in South Africa report offers a comprehensive guide to the size and shape of the market at a national level.
