Abstracts

Paediatric vitamins and dietary supplements remains by far the largest value category within paediatric consumer health. Despite a decline in retail volume sales in 2023, heightened health awareness since the pandemic and parents' approach to preventive health, as they look to support their children's immune systems and general growth, supports overall demand.

Euromonitor International's Paediatric Consumer Health in South Korea report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.

Product coverage: Nappy (Diaper) Rash Treatments, Paediatric Analgesics, Paediatric Cough, Cold and Allergy Remedies, Paediatric Dermatologicals, Paediatric Digestive Remedies, Paediatric Vitamins and Dietary Supplements.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Paediatric Consumer Health market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
