Abstracts

Value sales of paediatric consumer health remains positive in 2023. Swiss parents prefer to consult with their health practitioner when it comes to their children, and seek help from professionals before resorting to medical recommendations that lead to prescription-based products. Parents only resort to self-medication for their children when they judge that the ailment is minor and does not need medical advice.

Euromonitor International's Paediatric Consumer Health in Switzerland report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data 2018-2022, allowing you to identify the sectors driving growth. Forecasts to 2027 illustrate how the market is set to change.
