Abstracts

It is evident that the average consumer has become more health-conscious since COVID-19, as seen through transformations in ingredient-focused product development in dermatologicals, alongside the rise of natural remedies and botanical compositions in sleep aids, digestive health, and dietary supplements in the paediatric segment. 2023 has now witnessed the rise of diverging format preferences in paediatric consumer health, with topical treatments taking a more prominent role in analgesics and o...

Euromonitor International's Paediatric Consumer Health in USA report offers a comprehensive guide to the size and shape of the market at a national level.
