Abstracts

There was a clear shift in consumer preferences in Columbia in 2022, of which the main one was emphasising a delicate balance between affordability and quantity. This trend, driven by environmental consciousness and economic concerns amid rising inflation, led to the popularity of specific pack sizes across various industries. The trend was in line with the increase in on-the-go lifestyles, offering controlled portions, minimising waste and accommodating diverse budgets.

Euromonitor International's Packaging in Colombia report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
