Abstracts

Asia Pacific is the largest market globally for paper-based containers, and the region with the second-highest growth globally due to low per capita usage in the region. Paper-based containers have wide-ranging applications in industries from packaged food to home care, and despite the economic impact of COVID-19 in the region, particularly in 2020, steady demand for most such industries will drive stable growth for this pack type over the forecast period.

Euromonitor International's Paper-Based Containers in Asia Pacific global briefing offers an insight into to the size and shape of the packaging market, highlights the effect of emerging geographies, categories and consumer trends on the packaging landscape. It identifies the leading pack types, offers strategic analysis of key factors influencing the packaging market - be they packaging innovations, consumption growth, category switching, economic/lifestyle influences, legislation or environmental issues. Forecasts illustrate how the market is set to change and criteria for success.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Packaging market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems.
