Abstracts

In 2022, packaging trends in Singapore were significantly shaped by sustainability and consumer preferences. A study conducted by the Singapore Environment Council (SEC) revealed that 70% of consumers in Singapore were concerned about the environmental credentials of packaging materials. Responding to this concern, ecoSPIRITS introduced a Smart Kiosk in 2022 that allowed Singaporeans to conveniently refill their spirits bottles, reducing carbon emissions and single-use packaging waste.

Euromonitor International's Packaging in Singapore report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Packaging market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.

Euromonitor International has over 40 years' experience of publishing market research reports, business reference books and online information systems. With offices in London, Chicago, Singapore, Shanghai, Vilnius, Dubai, Cape Town, Santiago, Sydney, Tokyo and Bangalore and a network of over 800 analysts worldwide, Euromonitor International has a unique capability to develop reliable information resources to help drive informed strategic planning.
