Abstracts

The packaging industry in the Netherlands is undergoing a transformation due to a growing emphasis on sustainability, health-conscious consumer choices and eco-friendly alternatives. The rise in plant-based and vegetarian diets has led to a surge in demand for packaging solutions for meat and seafood substitutes, such as tofu. Manufacturers are investing in packaging that preserves product freshness, extends shelf life and promotes clear labelling. Thin wall plastic containers and folding carton...

Euromonitor International's Packaging in Netherlands report offers insight into key trends and developments in the industry. The report also examines trends and prospect for various pack types and closures: metal packaging, rigid plastic, glass, liquid cartons, paper-based containers; flexible packaging.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
