Abstracts

In 2023, personal accessories saw robust current value growth, building on the strong recovery observed in 2022 as COVID-19 safety restrictions were lifted. In particular, the first half of 2023 saw local consumers update and enhance their personal accessories post-pandemic.

Euromonitor International's Personal Accessories in Canada report offers a comprehensive guide to the size and shape of the market at a national level. It provides the latest retail sales data (2019-2023), allowing you to identify the sectors driving growth. It identifies the leading companies, the leading brands and offers strategic analysis of key factors influencing the market – be they new product developments, distribution or pricing issues. Forecasts to 2028 illustrate how the market is set to change.

Product coverage: Bags and Luggage, Jewellery, Traditional and Connected Watches, Writing Instruments.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.

Why buy this report?

Get a detailed picture of the Personal Accessories market;

Pinpoint growth sectors and identify factors driving change;

Understand the competitive environment, the market's major players and leading brands;

Use five-year forecasts to assess how the market is predicted to develop.
