Abstracts

Even though inflation remained high in Romania in 2023, personal accessories saw growth in both current value and volume terms. Romanians are increasingly preoccupied with improving their personal image, and despite declining purchasing power, they continue to demonstrate high brand loyalty. In addition, some Romanians now regard fine jewellery and high watches as a good hedge against inflation, reflected in strong sales for these categories in 2023. Some retailers now offer 'buy now, pay later'...

Euromonitor International's Personal Accessories in Romania report offers a comprehensive guide to the size and shape of the market at a national level.
