Abstracts

Personal wipes benefit from improved incomes, urbanisation, increased consumer awareness of hygiene, and innovation. However, health and environmental concerns - from chemical preservatives to flushability - continue to challenge the industry. The report analyses growth drivers and pricing dynamic across personal wipes categories. The report also outlines innovation trends and case studies, including industry response to sustainability and health as tied to consumer perceptions of “natural”.

Euromonitor International's Personal Wipes Update: Unmet Potential, Pricing, Innovation, Sustainability global briefing offers an insight into to the size and shape of the tissue and hygiene market, highlights buzz topics, emerging regions, countries and categories as well as pressing industry issues and white spaces. It identifies the opportunity zones within tissue and hygiene, analyses leading companies and brands, assesses the importance of private label and offers strategic analysis of major factors influencing the market - be they new product developments, economic/lifestyle/environmental influences, distribution or pricing issues. Forecasts illustrate how the market is set to change and criteria for success.
