## Abstracts

Growth of the global pharmaceuticals and medical equipment industry accelerated in 2018 on the back of strong performance of companies within Asia Pacific and Western Europe. Lucrative Asian markets, surging biologics production, and investment into innovative manufacturing are expected to ensure the category's positive performance going forward. However, a deteriorating trade environment, and rising pricing pressures cloud the industry's growth prospects.

Strategy Briefings offer unique insight into emerging trends world-wide. Aimed squarely at strategists and planners, they draw on Euromonitor International's vast information resources to give top line insight across markets and within consumer segments. Written by some of our most experienced analysts, they are designed as provocations for senior management to use in their own forum, allowing them to stand back and reflect on the behaviour and motivation driving global markets today and tomorrow

**Data coverage:** market sizes (historic and forecasts), company shares, brand shares and distribution data.
