Abstracts

Sales of plant-based dairy fluctuated significantly over the review period. During the peak of the pandemic, in 2020, volume sales shot up but then declined in 2021 and 2022. By the end of 2022, retail volume sales had largely returned to 2019 levels. Sales of plant-based dairy have returned to growth in retail volume terms in 2023. This is thanks to investment in innovation and new product development, increasing consumer awareness around these products and the increasing popularity of followin...
