Abstracts

Plant-based dairy remains niche in Kenya. While some sales have been registered in recent years, it has yet to enter the mainstream and most local consumers are yet to embrace these products in any meaningful way. One major barrier to success is that plant-based dairy products tend to have far higher unit prices than their bovine dairy product equivalents, which limits their appeal to affluent consumers. In addition, there is very low consumer awareness of these products and their advantages, wh...

Euromonitor International's Plant-based Dairy in Kenya report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere. In addition to the latest retail sales data 2018-2022, it identifies the leading companies, brands and retail outlets, and assesses the key trends and demographic shifts behind consumer demand and sales growth.
