## Abstracts

Demand for plant-based dairy products continues to grow locally, with other plant-based milk set to see the strongest retail volume growth in 2023, albeit from a low base. Plant-based milk remains by far the biggest category, thanks its wide availability across supermarkets. However, South African consumers are also just starting to explore plant-based dairy options beyond milk, with plant-based yoghurt and cheese gaining traction in the market. However, all these products remain expensive compa...
