## Abstracts

Plant-based dairy experienced a notable increase in sales over the review period, and this is set to continue in 2023. In South Korea, plant-based dairy is primarily dominated by plant-based milk, as plant-based yoghurt and cheese are still in their early stages of development. Amongst the plant-based milk options, soy drinks has traditionally held the largest share of sales, set to account for approximately 80% of overall value sales in 2023, due to being recognised as a nutritious beverage.
