## Abstracts

The vast majority of consumers typically consume dairy products, but as the health and wellness trend spreads throughout the country, a niche segment of the population has shown an increasing preference for plant-based foods. Hence, plant-based dairy has strong potential to take off, because these products are often higher in vitamins and protein, and lower in saturated fat and carbohydrate, and are less likely to cause allergic reactions in people who are intolerant to dairy products. Despite i...

Euromonitor International's Plant-based Dairy in United Arab Emirates report offers in-depth knowledge of the market at a national level, providing local insight and understanding unavailable elsewhere.
