Abstracts

Growth in plant-based dairy continues to be strong in Western Europe, with these products enjoying expanding distribution and rising consumer awareness. Other plant-based milk continues to take share from soy drinks, while plant-based yoghurt and cheese remain dynamic if still quite small categories. All areas of plant-based dairy, bar soy drinks, are expected to record healthy growth rates over 2022-2027, with other plant-based milk and plant-based cheese the most dynamic product areas.

Euromonitor International's Plant-Based Dairy in Western Europe global briefing provides a comprehensive overview of the Dairy Products and Alternatives market, providing insight on sales and market potential, retail distribution and company and brand shares. Analysis identifies emerging geographies alongside growth opportunities in the most developed, highest value countries. It also offers strategic analysis of the key trends shaping the industry and consumer demand, such as health and wellness, sustainability, the evolution of eating occasions, in addition to ongoing considerations of convenience and value-for-money in the post-pandemic world. Insight into how these trends are shaping demand informs forecasts to 2026, clearly indicating how the market is expected to change.

Product coverage: Baby Food, Dairy, Plant-based Dairy.

Data coverage: market sizes (historic and forecasts), company shares, brand shares and distribution data.
